

# NYCDOT Hunts Point Clean Trucks Program Reaches 500 Truck Milestone

An exciting milestone is within reach!

The New York City Department of Transportation (NYCDOT) Hunts Point Clean Trucks Program (HPCTP) is within reach of replacing 500 older heavy-polluting diesel trucks with 2010 EPA emission compliant diesel-hybrid, compressed natural gas, and diesel Class 3 to Class 8 trucks.

The HPCTP has replaced food distribution, beverage delivery, commercial carrier, waste and recycling, fuel service, cement, and moving and storage trucks. These 500 new trucks have resulted in significant environmental benefits by helping to improve air quality in the South Bronx since the launch of the program in 2012.

Come celebrate this milestone and thank the South Bronx business community for doing their part to make the Hunts Point Clean Trucks Program a big success.

## This event is FREE!

**Thursday, December 3, 2015**  
**10:15am**  
**The Savoy Manor Building**  
**Hostos Community College, Building D**  
**120 East 149th Street**  
**Bronx, NY 10451**  
[Click here to get directions »](#)

Come hear about our HPCTP successes in bringing cleaner air to the South Bronx and share a treat with your South Bronx community leaders, your neighbors in business, other community stakeholders, and the HPCTP Team.
